Temporary Use Permit Supplemental Application

The Board of Supervisors may grant temporary permits, not to exceed six (6) months. A temporary permit shall not be granted except upon a favorable recommendation from the Planning Commission.

A Temporary Use Permit is temporary and if approved, is limited for the length of time and the person stated in the application. The cost of buying and moving a temporary home onto the property and installing a well and septic system for a short period of time is likely to be more expensive than either renting a place or building an addition to your home. Another option may be a guest cottage; both the guest cottage and the addition tend to add value to the property.
